

## **Instructions for Ordering Neways...**

*High Quality, Non-toxic Home, Hair, Body Care and Make-up*

Go to [www.ineways.com/ebenezerwellnesspreferred](http://www.ineways.com/ebenezerwellnesspreferred)

Click on the "Join Now" button in the upper left corner and choose "New Member" or "New Customer". Both get a 30% off retail price but the Member gives you the opportunity to make commissions if you ever want to do that. There are no commitments either way, but if you want to think of this as a business talk with me because there are some pointers on more effective ways to get started.

You will get an ID number and a password. Keep up with these because you will need these to order in the future.

If you have any problems, the phone number for Neways is 800-998-7232

First of all, let me say that the body care, skin care and hair care products are great for two reasons.

1. *What they are missing – toxins & carcinogens*  
Neways has a long history of toxicology (the study of toxins and their effect in the body) as a part of the consideration for ingredients. It is not simply the ingredient list, but also what combined ingredients do when they enter your body. For more information you can visit [www.preventcancer.com](http://www.preventcancer.com)
2. *What they have – ingredients at the therapeutic level*  
Studies are done on skin or hair care ingredients that prove that the ingredient does great things, but few companies use the same level of ingredient in their product. They freely claim the benefits of the ingredient but in truth use just trace amounts. What that means for you is a fabulous product that works BETTER than one that is 2-4x the price!

I have personally tried many of the products and here is what I can recommend. If you have any questions about additional products, e-mail me at [elizabethnaylor@ebenezerwellness.com](mailto:elizabethnaylor@ebenezerwellness.com) and I will tell you what I know and find out anything else we need.

### **Hair Care**

There are two product lines: the basic Neways line with Ultimate shampoo and Exuberance conditioner and the salon line, Keratonics, with my favorites Volumizing Shampoo and Light Conditioner. Both lines have styling products (my favorites are the Keratonics styling gel or the Neways Sculpting Gel Extra Hold) but Keratonics has a full collection of shampoo, conditioner and styling product options.

Both of these lines are great. Keratonics is approximately 3x the price but it is a great product that compares well with salon lines. Neways' basic line products are a great value and they are great products.

You can get even more value out of either line by ordering the largest sizes. You can order pumps or spray tops for the larger sizes so that they are easier to use.

## **Instructions for Ordering Neways...**

*High Quality, Non-toxic Home, Hair, Body Care and Make-up*

### **Skin Care**

The basic facial product recommendations are as follows:

1. Extra Gentle Cleanser – facial cleanser
2. Retention Plus – An amazing product for 30yr + skin. It really rejuvenates. It is pricier than the other three recommended here, but well worth it.
3. Resurrection Bio-Mist – A moisture replenishing mist for any products.
4. Skin Enhancer (am) or Night Science (pm) – Skin Enhancer is the basic and then add Night Science as your budget allows.

For problem skin, call or e-mail for more specific instructions.

Other great products for body care:

1. Refresh Bath & Shower Gel
2. Tender Care Body Lotion
3. Ultrashine Radiance – a non-toxic, non-fluoride toothpaste with a mint flavor
4. Eliminator Mouthwash – great as a mint mouthwash or get a spray top and use as a non-toxic hand sanitizer or toner for problem skin!
5. Close Shaving Gel

### **Packages**

The *Convert Your Bath* pack is a value with everything you need to change over your bathroom and the *Convert Your Home* pack is an even better value with many of the facial products in the package for a greatly reduced price.

### **Home Care**

My favorites are the NewBrite Hand Dish Soap and the NewBrite Radicate for cleaning. You can dilute the Radicate for a gallon of cleanser. The dish soap is so mild I use it as hand soap in my bathroom dispensers. The Laundry Detergent is very effective and non-toxic, but it is more expensive than "7<sup>th</sup> Generation" Products found at the grocery. However, I have found it works better.

### **True Touch Make-up**

I love the lipstick, lip gloss, lip and eye liner, and mascara. I have not tried the other products yet, but I feel sure they are superior.

### **Aromatherapy**

I have been very pleased with the massage oil, lotion and the essential oils that I have purchased. If you are interested, e-mail me for a helpful chart on how to use these.
